HKUST Faculty Forum on Data Science

Date: January 24, 2014 (Friday)
Time: 9:00 - 18:00
Venue: Council Chamber, 7/F

Co-organizing Units:
- Division of Biomedical Engineering (BME)
- The Center for Statistical Science (CSS)

In HKUST, many faculty members have expertise in providing methodology and strategy in analyzing data. These are the faculty who need data. On the other hand, many have orthogonal strength in providing a large amount of data (or big data). These are the faculty who could provide data. If faculty members in these two groups could meet and find common interests/areas to work together, clearly there will be upward momentum for HKUST to take lead in this important area, big data (data science).

To generate sustainable sparks, BME and CSS co-organize this HKUST Faculty Forum on Data Science to bring the two groups together. We look forward to seeing you in the forum.

FREE REGISTRATION

Registration website: http://bme.ust.hk/facultyforum.html
Registration Deadline: December 31, 2013

Invited Speakers

Prof. Cameron CAMPBELL (SOSC)
Prof. Tom CHEUNG (LIFS)
Prof. Bingyi JING (MATH/CSS)
Prof. Qiong LUO (CSE)
Prof. Weichuan YU (ECE/BME)
Prof. Nevin ZHANG (CSE/BME)

Prof. Lei CHEN (CSE)
Prof. Inchi HU(ISOM)
Prof. Henry LAM (CBME/BME)
Prof. Matthew MCKAY (ECE)
Prof. Qinglu ZENG (LIFS)
Prof. Rong ZHENG (ISOM)
